

## Liability Insurance Letter of Understanding

Ariel Clinical Services requires the procurement of Host Home Provider Professional Liability Insurance prior to providing care for Members in services.

Professional Liability Insurance will cover property damage, bodily injury, and/or negligence of the professional requirements. General liability insurance does not cover negligence and will not be an acceptable form of insurance coverage.

Upon receipt of insurance policy, Residential Provider must provide a copy of the policy to Ariel Clinical Services.

The primary insurance company providing these policies is Flood and Peterson Care Association. Detailed information regarding cost and coverage can be found on their website [careassociation.net](http://careassociation.net)
